

About the Earthquake in Northeastern Japan

We would like to express our deepest sympathy and condolences to the victims of The Pacific Coast of Tohoku District Earthquake occurred on March 11, 2011 in northeastern Japan and our sincere hopes for the earliest possible relief and recovery of the affected areas.

About Our Present Situation

- (1) We have no human damage to the employees or staff of our Group Companies
- (2) Slight material damages in our Kasai Center and Chiba Works such as partial damages to the building and/or falling of filing cabinets were experienced. However we do not consider such slight damages would cause serious impact on our operation.
- (3) The rotational schedule of interruption of power supply due to the Earthquake may affect our operation at our Works and subsidiaries. However the degree of the impact is not known now.

Further development or the change of the situations will be reported, if any.
